The question of the General Council of the I.E.W.F.Inc.
or Charter Unit establishment - A. Foxe ( Intl./Presdt. )

In studying the question of the General Council giving representation to every Rastaman and supporting the Faith, we will have to examine the O.A.U. as a general council of ministers from independent African states establishing an organisation that would represent them as a political entity of Africa in the ' Hall of Nations ' of the world, and at the same time each state maintaining their autonomy with the principle of non-interference governed by their own Prime Ministers, Kings and Generals. At present the General Council of the I.E.W.F.Inc. has to be more objective in its operation than the O.A.U. , reason, the objective of the General Council is to legitimise the I.E.W.F.Inc. as the mandatory organisation "Willed" by Emperor Haile Sellassie I to administer the affairs of Rastas in the last days, which is now . This could be the the international executive body of the Federation, with representatives from the Americas, West Indies and Europe, responsible for the establishment of the Mass - Movement objectives of Liberation of our Mother-land, Restoration and Repatriation, and at the same time, each House getting Unit Status of the I.E.W.F.Inc. and their House captains becoming presidents of the Units, answerable to the Mother-body which is answerable to the General Council which is answerable to the Crown Prince and the Crown Council as an Ethiopian Institution for we the Rasta-Ethiopian people .

.....2/.....

As the International/President of the I.E.W.F.Inc., I must interpret the objectives of the organ, the "Will" of the Emperor and the Crown Prince . The conception of the O.A.U. cannot work, because Ethio-Africa is a continent with independent states,and the Rasta Movement is classified as a community with captains over 10-20-30-40 brethrens, in which case it would not constitute a political structure as the O.A.U.

We must accept the document to establish a governing body given to the International/ President by Crown Prince Asfa Wossen H.S. , as the strustural body governing the I.E. W.F.Inc. as an Ethiopian entity as in 1937 when the E.W.F.Inc. consolidated the different groups in U.S.A. and Jamaica under the international body or council established by Dr. Malaku Bayen, personal representative of Emperor Haile Sellassie I to America, as the authoritative organisation of Ethiopia, defending a free Ethiopia. This must be the objective in our minds when speaking of a General Council geiing representation to all Rastafarians, irrespective of geographical distance, this is the will of Emperor Haile Sellassie I and the wishes of Crown Prince Asfa Wossen H.S.

It is in this same spirit of a Free Ethiopia that Emperor Haile Sellassie I and Crown Prince Asfa Wossen H.S. calls on the followers of the Movement today to embrace and consolidate their international activities in unison, so as to establish the international body ( General Council ) executive , which will be responsible for the administrative affairs of the Movement internationally, assisting in the liberation struggle and the restoration of the constitutional monarchy of the Solomonic Dynasty of Ethiopia, leading to general repatriation .

In closing, I will quote Emperor Haile Sellassie I, " Ethiopia belongs to Ethiopians, this has been one of the legacies of our country's age-old independence. Throughout our reign We have been striving to bring the benefits of modernisation to our people, although we cannot yet say that economic and social oppertunities are uniformly enjoyed by the people, it must none the less be accepted that we have continued to institute measures to enhance the lot of our people. This process will continue " .
